(See following pages for explanation of incomplete courses and for new operation plans of the Campus Center Cafeteria.)

INCOMPLETE COURSES AND PRACTICUMS

n response to inquiries concerning the way in which incomplete courses are handled, the ollowing explanation of procedures is called to the attention of students and faculty:

he Seminary's grading system itself contains no provision for incomplete classes. ection 2.2 (a) of the ACADEMIC REGULATIONS contemplates that courses and practicums rdinarily will be concluded by the date specified on the approved schedule of examinations. his implies that the instructor will base his final grade upon the requirements actually atisfied by the deadline.

f MINOR PORTIONS of the work remain incomplete by that deadline, but the student's erformance as a whole is satisfactory, a passing grade should be entered, appropriate djustment being made for the delinquent requirements.

f MAJOR PORTIONS of the work remain incomplete by the deadline, so that a passing grade cannot e entered solely on the basis of the work actually accomplished, a failure (6 or U) hould be reported.

he grade of 5 represents a CONDITION, not an incomplete, and should be issued only when a tudent, upon active participation in the work of the class, reaches the end of the emester so precariously balanced between passing and failure that the instructor cannot easonably decide between these two options without some additional evidence presented by the tudent. Such additional evidence might be a re-examination over a portion of the material overed by the class, an appendix to a previously-prepared semester paper, or some other roject of modest proportions. Obviously, where a student has been indifferent to his esponsibilities to the class and has finished little or no work, grounds for assigning a conditioned grade are absent.

Where the grade of 5 is entered, the student automatically is given until the second Saturday of the next semester to submit the evidence needed for a final resolution of his standing. If that evidence is submitted and is found to be satisfactory, the final grade should be reported as 5P (passing); otherwise, the final grade becomes 5F (failure).

It is implicit in this procedure that the instructor and the student, even before a grade of 5 formally is reported, will have arrived at a mutual understanding of the requirements that must be satisfied in order for the 5 to be resolved. THE COMMITTEE ASKS THAT IN EACH INSTANCE WHERE A 5 IS GIVEN, THE INSTRUCTOR ATTACH TO HIS REPORT A BRIEF STATEMENT OF THE WORK THAT THE STUDENT HAS AGREED TO DO IN SATISFACTION OF THE REQUIREMENTS. THIS STATEMENT WILL BE PLACED IN THE STUDENT'S FILE IN THE OFFICE OF PROFESSIONAL STUDIES.

In some cases, upon petition to the Director of Professional Studies, a student receives permission to present class requirements after the deadline announced on the examination schedule. A copy of the petition is sent to the instructor in charge of the class. Where an extension is granted and the work is completed by the new deadline established on the petition, such work should be evaluated without prejudice for tardiness, and a final grade should then be assigned. In the interim, no grade at all is reported.

Just as the Committee on Professional Studies will not consider requests for extensions involving intra-semester deadlines fixed by the instructor, so also the instructor may not himself grant an extension beyond the deadline announced on the examination schedule.

SECOND-SEMESTER CAFETERIA OPERATION CHANGES.

During a year and a half of cafeteria operation the Seminary has suffered considerable financial loss, in spite of efforts to maintain the quality of food and service to the Seminary family while reducing operating costs.

Cost analysis shows a major reason for this loss is consumption by some users of unlimited quantities of beverages. Consequently, certain changes in cafeteria procedures must be made beginning with the second semester of academic year 1970-71.

"Board students will be permitted to go through the line once to select their regular meal." Meal allowances are described in the Campus Center Cafeteria Operation literature given each board student when his board card is issued; these will remain unchanged. The total meal allowances include beverages, but ALL BEVERAGES MUST BE ON THE TRAY WHEN THE STUDENT SURRENDERS HIS BOARD CARD TO THE CASHIER. A student who takes food costing more than the cash allowance or who returns for any additional food or beverages must pay for the excess or seconds. Any other member of the Seminary community who pays cash for his meals must also pay for seconds or additional beverages.

Coffee urns will be placed in the middle of the Dining Hall for people who would like second cups of coffee.

I know we can count on the support of all members of the Seminary to help effect this change in cafeteria procedure, so that the cafeteria can be operated during the second semester of this year without any increase in charges.

AN INVITATION

Dr. Jack Cooper, Director of the Center of Continuing Education, invites all Seminary students to a dialogue with participants in the Jewish-Christian Dialogue Seminar. February 15 - 18 at the following times:

Lunch at 12:30 on February 16 and 17. Four to six tables will be set aside in the extreme left portion of the Dining Hall. Four chairs at each will be saved for students who would enjoy informal conversation with seminar participants.

(After dinner) at 7:00 P.M. in the Campus Center Lounge. The two seminar leaders, Rabbi Norbert Samuelson and Professor Daniel Migliore, will answer questions and engage in informal give-and-take among students, seminary participants and any other members of the Seminary community who wish to come.

During the seminar, Rabbi Samuelson will speak on "The Logic of Religious Authority," "A Defense of Moral Particularism" and "A Clarification of the Love-Law Issue." Dr. Migliore will present "The Exodus Experience: An Opening for Jewish-Christian Dialogue," "The Jew as a symbol in Karl Barth's Theology" and "Creative Hope and Christian Triumphalism."

Note: A seminary is one of the most logical places for good church music to be developed in both the traditional and contemporary idioms. Our newly organized mixed choir will explore the gamut of religious music this semester from Palestrina to Malcom Williamson. We aim to provide some interesting and beautiful music for our chapel services. The choir needs more sopranos and altos, preferably able to attend both weekly rehearsals. Practise is now scheduled for Tuesdays and Wednesdays from 1:30 to 2:30 in Miller Chapel. Contribute a little of your talent, time and effort to a semester of outstanding music.

CHAPEL VOLUNTEERS SOUGHT---If you have ideas for a chapel service or a series of services, contact Fred Anderson, Student Coordinator for the Chapel Group, or Dr. Arlo Duba. AND, come to the meeting of the Chapel Group at 7:30 on February 9 in the third floor bridge lounge of Erdman Hall to start making plans. Everybody interested in the chapel is urged to come.

Note: LIBRARY XEROX MACHINE: The present coin-operated machine was installed to provide efficient copying service at cost. In order to maintain this, we need your cooperation. First, we are asking that you not attempt to Xerox folio volumes (the over-size books in the basement) or fragile library materials. The damage which Xeroxing causes is expensive and sometimes impossible to repair, and there are less destructive means of reproducing these materials. Second, since the operating costs of the 720 Xerox machine are barely---if at all---met by the nickel charge, we would appreciate it if you would use the 3600 in Hodge Hall for Xeroxing all non-book materials, such as papers, class notes, and other single sheets. This will cost you no more and will keep the operation here closer to the black.

Charles Willard, Librarian.

HYMN WRITERS ARISE! The Hymn Society of America has heard that we need hymns that reflect contemporary concerns, in a modern idiom (non-Elizabethan) and on modern and/or traditional topics. A request is being made to seminary students throughout the English speaking world to submit new hymn texts and/or tunes by May 31, 1971.

So, START WRITING HYMNS, or submit some that you have already written. Get a copy of the guidelines from Dr. Arlo Duba, and also submit to him any hymns you would like to have used in the chapel before the end of the year.

The first chapel service emphasizing new hymns will be on Wednesday, February 10, at which time we will use hymns recently published. As soon as we have other hymns available we will organize chapel services around them.

Campus Note: Bruce M. Hucker, candidate for the degree of Doctor of Theology at Princeton Theological Seminary, has been awarded a Woodrow Wilson Dissertation Fellowship. His thesis, in the field of Christian Ethics, will be titled "Who is My Neighbor? A Study in preferential and non-preferential ethics."

Note: Students free from mid-May, and with previous archaeological experience, are invited to join an international team on the final season's dig of the important Anglo-Saxon site at North Elmham, Norfolk. The excavation is expected to throw important new light on how the Anglo-Saxon forefathers of the English lived. Experienced helpers will receive free board for helping in this important work. For details, write to Professor Ian Lowson, 539 West 112 Street, New York. Other students without experience are invited to join the British Archaeology Seminar at Lincoln, College, Oxford, which includes three weeks participation on digs in different parts of England or Scotland. Cost, inclusive of Trans-Atlantic travel by scheduled jet, is $750. For more information, write Professor Ian Lowson at the above address.

The New Jersey Department of Higher Education wants to reach students who are potential recipients of an Edwin Aldrin Fellowship which is worth up to $3,500. If you have in mind a socially useful research project which can be completed within a school year and depends on a cash grant for completion, the department is looking for you. Any area of study or research is eligible for an Aldrin grant, as long as the results are potentially beneficial to society. Examples would be research into the delivery of health services of a particular area, a regional survey of drinking water supply, a review of programs aimed at the elderly, etc. Whatever your bent---ecological, sociological, urban, political---inquiries or project proposals may be addressed to: Assistant Chancellor for Student Financial Aid, Department of Higher Education, 225 West State Street, Trenton, New Jersey 08625.

Wineskin notices are due on the Tuesday noon of the week preceding the scheduled activity.

PRINCETON THEOLOGICAL SEMINARY Volume No. X EXTRA Friday, February 12, 1971

EXTRA - EXTRA - EXTRA - EXTRA - EXTRA - EXTRA

The General Faculty of Princeton Theological Seminary wishes to express publicly its revulsion and disgust at the fact that on Monday evening, February 8th, a cross was burned at the War Memorial in Princeton at the corner and Nassau Streets.

The perpetrators of this desecration and their motives are not known at this time, but even if the act was a prank it is also a symbol which should call forth from the community of Princeton the strongest possible protest. The cross, sign of the reconciling death of our Lord Jesus Christ, has been misused in this fashion for years by the Ku Klux Klan in its efforts to terrorize the Black citizens of our country. It will be naturally understood here also as an effort to intimidate our Black fellow Princetonians.

We repudiate all that is associated with the burning cross and pledge ourselves to combat in every way the spirit that made this act possible here.

FACULTY RESOLUTIONS:

RESOLVED: That the General Faculty supports, in principle, the concept of an assembly of alum and members of the General Faculty, student body and administration which would consider issues related to its constituent parts and to the Seminary family as a whole, with a view to making, a needed, proposals and recommendations to the appropriate bodies.

In order to facilitate the establishment of this assembly, we resolve to elect five members of the General Faculty who shall serve as our negotiating team to meet with representatives of the student body (who we propose number seven: five M. Div. - M.R.E. and two Th.M. - Th.D.), administration and alumni (two and two, respectively). The member of the General Facult receiving the largest number of votes shall serve as convenor of the groups. It is the expectation of the General Faculty that these negotiations will lead to the proposal of a more specific charter for the assembly, which shall be referred to the constituent agencies for adoption, in the case of the General Faculty, at its March meeting. We anticipate the likelihood that our negotiators would become our delegates for the first period of operation.

THE GENERAL FACULTY OF PRINCETON THEOLOGICAL SEMINARY wishes to express publicly its revulsion and disgust that on Monday evening, February 8, a cross was burned at the War Memorial in Princeton at the corner of Mercer and Nassau Streets.

The perpetrators of this desecration and their motives are not known at this time, but even if the act was a prank it is also a symbol which should call forth from the community of Princeton the strongest possible protest. The cross, sign of the reconciling death of our Lord Jesus Christ, has been misused for years by the Ku Klux Klan in its efforts to terrorize the Black citizens of our country. It will be naturally understood here also as an effort to intimidate our Black fellow Princetonians.

We repudiate all that is associated with the burning cross and pledge ourselves to combat in every way the spirit that made this act possible here.

Following the approval on February 10 by the General Faculty of one resolution calling for negotiations directed toward the establishment of a representative assembly, an open meeting of the student body was held on February 16 at which participation in the proposed negotiations was endorsed. The following students were elected to serve as negotiators for the M. Div. - M.R.E. students: Harold Lott, Charles Curtis, Mary Marple, Harry Batuyios and James Slicer.

We urge the prompt initiation of negotiations and hope the results may be fruitful.

VIEWPOINT

With the advent of a new semester, VIEWPOINT is under a new editorship. We are initiating a change in format, which will coincide with an overall alteration in style and content.

(1) We are initiating two series, "Questions for Man" and "Issues for you." Each VIEWPOINT will have a different question and issue to which we have invited participants, and to which we encourage others to come forward and submit their viewpoints. The Questions are very broad and we are asking for an analysis of how any one leading thinker of the last 2,000 years might respond to such a question. The Issues are very specific, and we seek conservative, liberal and radical theological statements from the Seminary community.

(2) We would like to encourage the publication of short, but good, classroom works (precept papers, book reviews).

(3) We feel the need for creative works is important and we hope the serious nature of our additions does not discourage those who also want to contribute creative mind-blowers.

Please place all VIEWPOINT material in the appropriate box in Stuart Hall Basement.

Articles of any length on any subject are welcome. Also the staff needs to be enlarged. Contact Jim Slicer or John Wilde if you would like to join. VIEWPOINT hopes to focus in on such topics of community concern as: COCU, mysticism, educational reform, the idea of "just war," medical ethics, and the U.S. Justice system. A series is being planned on the following philosophical-theological problems: The Transformation of Man, the Nature of Work, the Nature of History, the Nature of Power, the Nature of Evil, and the Transformation of Society. Dr. Hartman will speak on "Theology and Ecology" the following morning at 8:00 in Room 1 of Stuart Hall, and will participate in an informal seminar on "Pastoral Care" with Dr. Herbert Anderson's Senior Seminar class at 1:30 in the afternoon of the 18th. Both dramas are being performed for the first time in this country and it is their first presentation in English. G. Robert Jacks, S.T.M., who directs both plays, has also translated them from the Swedish as part of his Doctor of Philosophy treatise.

NOTES

President James I. McCord will lead a March 29 - April 1 seminar on "American Ecumenism: The Direction of the 1970's" at the Center of Continuing Education. During the sessions, Dr. McCord will present lectures on "A New Case for Union?" "Tradition and Convergence," "Catholic and Protestant," "Ministry of the Church," "Ministry in the Church" and "Mission and Models." Orientation, informal Bible study and the summary and evaluation will be conducted by the Reverend Dr. Jack Cooper, Director of the Center.

Jack Miller, normally responsible for gathering and disseminating on the pages of The Wineskin announcements and news notes for Seminarians, is teaching a one-week course in Greeley High School, Chappaqua, New York. His subject is "Breakdown in the Church?" Various media are employed to rediscover, in a contemporary manner, the meaning of the faith. Dialogue concerning the disenchantment of today's youth and the failure of the Church to address itself to the faith it professes will involve 50 students and eight adults from a wide background of experience--Catholics, Protestants and agnostics.

ECOLOGISTS, PLEASE NOTE:

great waste of paper results from using the letter-size brown Seminary on-campus envelopes ne time only. TO SAVE PAPER: 1. Do not stick down the flap; tuck it inside the envelope. f the papers contained are confidential, stick the flap down with gummed tape. 2. REUSE ach envelope. Usually, even the stuck-down flaps can be opened, with care, without tearing ne envelope. When the flap is Scotch-taped, slit the tape, rather than the paper. Block out our name, using a marking pen, and reuse. (If the envelope also bears the name of the sender, e sure to block that out, as well.) 3. Each envelope can be used 30 - 40 times this way, nstead of once. After the surface is covered, the use of opaque gummed strips will permit rther use, indefinitely.

AFTER-DINNER TIME TO BE EXTENDED
Dining Room Problems Explored

Suggestions from students about the Dining Room, considered by a student-administration committee, have led to an extension of evening conversation time around the tables in the Dining Room and plans for dealing with a number of problems.

The Committee, comprising the President of the Student Association, the presidents of each of the three classes, the official representatives elected by the Th.M.'s and Th.D.'s, the Dean of the Seminary, the Business Manager and the Chairman of the Campus Facilities Committee, were asked to discuss questions raised on March 5 at an informal meeting of students to consider Dining Room problems. The Committee met on March 10. All were present except Messrs. Wiser and Donahue.

Question #1: Elimination of Monthly Banquets. It was felt that many boarders like the banquets and that others would enjoy them more if arrangements could be made to open the Dining Room a little earlier on these occasions. The next scheduled event will be family-style, with faculty waiters. The major reason advanced by students for instituting the banquets was that they would bring together a larger proportion of the community; many married students do take advantage of this opportunity. Married students and others who attend pay the full cost of their meals, so that only the boarders receive extra financial benefits. These costs are covered by the Seminary. The group felt the two remaining banquets should be held, with, possibly, a sampling of opinion about next year.

Question #2: Food Running Out Before Closing Time. Mr. Lawder agreed to ask that special efforts be made to have food available right up to the end of the period. It was noted that it is not always easy to forecast the popularity of a particular dish.

Question #3: Long Waiting when Visitors Are on Campus. Income from visitors helps to keep costs down for boarders. It was recommended that large guest groups be scheduled into the Dining Room 15 minutes after the boarders begin and that efforts be made to start second lines on time.

Question #4: Prices for Individual Items. It was recognized that food prices vary greatly, so that some changes are probably unavoidable, but management will be asked to avoid unnecessary shifts.

Question #5: The Requirement that Students in Dormitory Rooms Eat in the Dining Room--the Questionable Legality of This Arrangement. Because the two operations are making services and facilities available to students at much less than commercial cost, because the arrangement brings advantages to most of the students involved, available in no other way, and because students considering enrollment have access to the Catalogue and know the plan before attending, there seems to be no reason for abandoning the requirement.

Difficulties attendant upon a plan by which each item of food is purchased by a student when he goes through the line were briefly explored: The cost per meal would be much higher, due to the unpredictable nature of demand; the cost of board for most students who eat in the Dining Room regularly would increase greatly, while a few would benefit from the arrangement; a premium would be placed on being off campus; some students would economize by not eating enough or by trying to cook in dormitory rooms (which is prohibited by fire regulations).

[MORE, MORE, MORE]

uestion #6: The Observation That Lines Often Open 5 - 7 Minutes Late, but Never Are Open Later Than the Stated Times. The Committee recognized that late opening is related to the fact that some student workers are in class until 12:30 and, despite valiant efforts, arrive a few minutes late. This problem will be discussed with the Dining Room management.

uestion #7: The Lack of a Place for Students to Continue After-dinner Conversations. At the Committee's suggestion Mr. Lawder agreed to arrange for a student worker to keep the Dining Room open until 8 o'clock each evening, Monday through Friday.

uestion #8: The Possibility of Extending the Icecream Slip System, so that anyone getting less than the limit could go back and get additional food. It was calculated that if anyone used his entire daily allowance of $4.10 ($1.00 + $1.50 + $1.60) for the two semesters, he would be receiving over $800 worth of food for the board charge of $580. In view of this, it seems reasonable to avoid complications which would arise from any call-back arrangement.

uestion #9: The Possibility of Securing a Place where Th.M.'s Could Eat Together on Mondays at Noon. (This question was introduced by the Th.M. representative.) Mr. Lawder agreed to explore various possibilities, including the availability of different rooms and the purchase of partitions.

he Committee received a report from Mr. Lawder that all but a small fraction of the cards eturned on the question of extra beverages favored payment by the individuals who desire them.

otices for The Wineskin must be received not later than 12 noon on the Tuesday preceding the eek in which the events to be publicized will occur. Please print or type your material, to revent misreading of names and dates. All notices must be signed or the items cannot be rinted.

lease put your notice(s) in the Campus Mail slit at the switchboard in the Administration uilding, addressed to: Editor, The Wineskin.

ote: The Editor will welcome BRIEF accounts of student/faculty/administration activities, on or off campus, similar to the report of Jack Miller's work in Chappaqua. It has been remarked, with considerable justice, that Alumni know more about what is going on at the Seminary than do most students, because of the Campus Diary section of the Alumni News.

Reports of guests expected on campus to give in-course lectures are also welcome, whether the events are open to the general Seminary public or to specific classes only.

Please follow the general rules listed above, to ensure that the material can be used.

240,000 baby seals will be murdered this year--to make "fun furs for fun guys and gals"!
240,000 baby seals, at the rate of 50,000 babies per week, by some 600 men (sic).
240,000 baby seals. Each man will receive not more than $300 for his work.

THUS:

$	300	(maximum "take" per man)
X	600	(seal butchers)
$	180,000	(TOTAL PRICE for BABY KILLING)

or less than $1.00 per seal pup killed. 75¢ to be precise. For each murdered baby seal.

Now, $180,000 may sound like quite a chunk of loot. But it is less than at least one of our Senators receives annually NOT to grow certain crops on his fields. It is less than the cost of ONE of the helicopters shot down in Vietnam. It is less than the cost of---well, fill it in for yourself, from components of a space capsule to plans for the SST.

It is also far less than could be appreciated from chartering sight-seeing helicopter trips over the seal nurseries, so that all of us could show our children one of the most amazing and touching sights in the world--the mother seals playing with and training their pups, on ice no longer red with the blood of the newborn.

NB: The USSR and Japan have ordered their hunters away from the Pribilofs because THE SEAL HERDS ARE SO BADLY DEPLETED BY THE ANNUAL MASSACRE THAN THE SPECIES WILL SOON BECOME EXTINCT UNLESS WE STOP THE SLAUGHTER-----NOW.

The murder of thousands of baby seals is neither economically feasible, ecologically possible nor acceptable in a Christian nation. SIGN THE PETITIONS POSTED ON THE DOOR OF ROOM 10, BASEMENT, ADMINISTRATION BUILDING. Make your protest known.

Notes:

"Dyke" Dykstra's paper "Children's Attribution of Negative Traits to Authority Figures as a Function of Family Size and Sex," co-authored by Professor Gordon B. Forbes of Milliken University, has been published in Psychological Reports, Volume 28, pp. 363-366. Semi-projective tests used in 196 first through fourth grade male and female students demonstrated that boys (105) had more negative attitudes toward authority than did girls (91). Boys from large families had more negative attitudes than males from small families. No correlation was discovered between attitudes toward authority and family size for girls. The findings suggest that the social learning experience accompanying large family life produce among males more negative perceptions of authority.

"The Holy Land in Art," an exhibition of the works of Lou Burnett and Martha Moore, will be on view at the Speer Library through May first. Working at times under the protection of a guard squad of Israeli soldiers, the artists have brought back with them a collection which displays a free-flowing, impressionist technique characterized by a lavish use of brilliant colors sharply contrasted to dark hues and areas of strong light and shadow.

FRIENDS OF ANIMALS is seeking volunteer students to work in Washington, D.C., this summer on behalf of environmental legislation. Those who join the new ecological task force will be supervised by counsel to the Co-mittee for Humane Legislation. They will coordinate their activities with those of other humane and conservation societies. It is believed that "student lobbyists" can be a major force in compelling our representatives in Congress to pass laws which will preserve the wonders of nature for coming generations. Although no funds are available for the students, they will be assisted in finding lodgings with Washington D.C., families. Further information can be obtained from: Lewis Regenstein, Director of Student Lobbyists, Committee for Humane Legislation, Inc., Suite 310, 905 Sixteenth Street N.W., Washington, D.C. 20006. ON PLANES AND CARS AND GASOLINE: To call for social change is easy; to achieve it is difficult and tedious. It requires organization and employment of social power. If we Christian churchmen want to achieve desirable social change, we must use every resource available. Princeton Theological Seminary is committed to racial equality, and now we are a sponsoring member of Project Equality, probably the most promising organization in sight today for speeding up racial equality in employment. Let us make it work.

As a starter, everyone should become acquainted with the Project Equality Buyers' Guide, which lists all businesses pledged to equal-opportunity employment and affiliated with Project Equality. In our purchases we should favor those business and let the others know we are doing so. I have a supply of Buyers' Guides and am happy to give anyone a copy.

Meanwhile, IF YOU PLAN TO FLY: Fly American, Braniff or TWA. No others are now affiliated with Project Equality.

IF YOU RENT A CAR: Rent from Avis or General Leaseways.

IF YOU BUY GASOLINE: Buy from Chevron or Sunoco. No other national brands are now affiliated (though scattered service stations are affiliated).

MIDDLER CLASS AND SENIOR DOSSIERS

Secretary of the Seminary Arthur Byers has received several inquiries from Middlers asking whether they might begin this spring to prepare their dossiers, or perhaps work on them over the summer. Although the dossiers are not very complicated to prepare, a certain amount of orientation is needed to avoid common errors and to make the best use of the time spent in this preparation.

Therefore, Mr. Byers would be willing to hold a special spring orientation meeting with a group of Middlers who would like to start early in filling out the Candidate's Information Forms. All United Presbyterian Middlers who will be seniors seeking help in placement next fall are invited to come to Mr. Byers' office, Room 121 Hodge Hall, to sign up for an orientation meeting in May. The date of Wednesday, May 12, 7:30 to 8:30 P.M. is suggested. The meeting will be held in Room 4, Stuart Hall. If there is sufficient response to this invitation, we shall carry through with this plan. Be sure to come in and sign up first.

There is a terrifying mythology abroad on the campus which makes the preparation of these forms appear to be as difficult as a doctoral comprehensive but this is not really true. The forms require thought and time, but are not difficult. The worst pain probably comes from the realization that the time is NOW for career decisions, the culmination of seven years of study in college and Seminary.

Mr. Byers welcomes this opportunity to help Middlers start early on this procedure. The only condition will be attendance at the orientation meeting on May 12th. (signed, Arthur Byers).
